**WHY DOES THIS MATTER?**

1 in 9 people don’t have enough safe and nutritious food.

**TODAY:**

- A child dies from hunger-related causes every 10 seconds.
- 1/3 of all food on the planet is wasted.
- 1 out of 3 schools do not have safe water and sanitation.

**TOMORROW:**

- By 2050, there will be at least 9 billion people on the planet.
- In the next 40 years, humans will need to produce more food than they have in the previous 10,000 years combined.

---

**WHAT IS FOOD SECURITY?**

There are three essential components:

- **QUALITY**: Safe, healthy and nutritious food.
- **QUANTITY**: Enough food to lead a healthy and active lifestyle.
- **AVAILABILITY**: Finances to purchase food near where you live.

**STEP FIVE: SOLUTIONS & RECOMMENDATIONS**

Finding ideas for solutions can be tough. Start by researching what already exists.

What are 2-3 solutions that address the challenge?
- **In your chosen country**: what is currently being done or what has been tried in the past? What worked and what could be improved upon?
- **In another country**: what has been done to address similar challenges? Would they be appropriate to implement in your country?

**WHAT ARE THE STRENGTHS AND WEAKNESSES FOR EACH OF THESE SOLUTIONS? USE THIS BOX TO OUTLINE THE PROS AND CONS.**

SOLUTIONS & RECOMMENDATIONS

☐ Would these solutions meet all the needs of the population in your country?

☐ What solution would you recommend to solve this challenge? Describe the plan of action.

☐ Who would manage and lead this project? Examples: The United Nations, World Bank, non-profits, civic organizations, etc.

☐ How could this project be funded?

☐ What role do community members, the government, and other organizations play in implementing your plan?

☐ What policies would need to be in place for the project to be successful?

☐ What cultural norms or behaviors need to be considered while developing your plan?

☐ How can this project be sustainable?

PRO TIP

Is the solution simple or complex? Is it expensive or affordable? These are important questions to ask yourself!

  - Essay title (in bold)

Your paper will be checked for plagiarism.

Make sure to take the time to analyze and interpret the articles and information you read, and explain them in your own voice. It’s important to always be careful when sharing an idea or concept that is someone else’s (even if you explain it in your own words), that you properly credit the original source.
