

# THE WORLD FOOD PRIZE

## Borlaug-Ruan International Internship Parent/Guardian Consent Form

The prestigious Borlaug-Ruan International Internship provides high school students an eight-week, hands-on experience in the summer working with world-renowned scientists and policymakers at leading research centers. All of these placements are located outside of the United States and student housing varies by location.

The Borlaug-Ruan International Internship is different from other study abroad internship programs in that students participate in original research projects with acclaimed international scientists while getting a firsthand view of pressing food security issues and nutritional problems in poverty-stricken areas of the developing world.

Through the internship program, the student becomes an integral part of their assigned project, spending time in the lab, as well as days or weeks at a time in the field, conducting research and gathering data. The World Food Prize Foundation covers all meals, flights, and lodging costs associated with the sight location.

**By signing below, I verify that my child has my permission to apply for and, if selected, participate in the Borlaug-Ruan International Internship Program during the Summer 2019.**
